

Wellington Farm and Home Safety Association

What is the first thing you do when you get in a Car?

Do up your seat belt,

It did not use to be this way and now we are used to it.

This is a mindset we can program ourselves to think.

What we are learning tonight must be a mindset

Something we must do all the time.

Loader Safety

- Walk around loader, not under, not over
- Loader will be slippery with oil or water
- Service on anything, leave the loader down
- Caution to watch pinch points, while greasing
- Carry load low, rolling terrain
- Lifting bales, use back rack for right bales
- Jumping off tractor, can catch clothes
- Tractors without start protection, Jump starting
- Roll over, or Run over
- Turning with Implements, roll over wheel
- Hitching up Implements, pinch point
- Jumping over hitch

Hydraulic Safety

- Hoses will or could have wires sticking out
- Always wear safety glasses
- Watch for an abraided hose
- Ends that are not crimped on right

PTO Safety

- Disengage or turn off to do service
- Entanglement, Guards, Greasing
- Cold weather, PTO can run slow
- Fitting to Machine, pinch point
- Stepping over PTO
- Hook up chain on PTO, for safety

Guards Safety

- All guard must remain in place
- Must use a tool to remove or it falls into places

ATV Safety

- No roads in Wellington County
- Use Helmet and proper gear
- 4 wheels only
- Age, 12 no, 90cc 12 to 16,
- SMV sign, Means 40KM/H only
- No Riders
- Friends don't drive they crash

Shop Safety

- Glasses, All the time
- Grinders, Stop, wheel size, no gloves
- Saws, Hot saws
- Chain Saw, Age, Chaps
- Welding, helmet, gloves
- Hot sparks and parts
- Electrical, Outlets, high voltage, Plugging out
- Battery chargers, Glasses,
- Shoes and Safety boots
- Coveralls, gloves, loose fitting clothing
- Hoodie strings
- Tires, observe pressure while filling
- Air hoses, never blow against clothing
- Torches, one turn on valve

Chemical Safety

- Label all containers
- Lids on in work areas
- PPE
- Only chemical in container meant for it

Grain Bin Safety

- Entrapment, Don't struggle
- Flowing grain, can get you in fast
- Rescue by rope and hand only
- Augers covered

Skid Steer Safety

- Use SMV sign on road
- Bucket down all the time
- Operate controls from seat
- Remove hands if you are out of control

Around the Farm

- Manure Pits and Spreaders H2S
- Water outlets, fast flowing water
- Driving, proper size operator for Vehicle
- Ladder 4 : 1
- SMV sign driveway not permitted
- Fire extinguisher at the base of the fire
- Procedure manual for all farm operations
- First Aid Kit in every vehicle

***When you jump to a task,
You may be jumping into danger
Look twice, think twice, act once***

Don't be Hasty Use Safety
